Some handy tips....

- Applications must be completed and submitted through the eAdmissions system before the deadline.
- Parents should ensure that they have clicked the **"Submit application"** button once they have completed their application.
- An application is not considered submitted unless the parent receives a confirmation notification from eAdmissions acknowledging receipt of the application.
- Parents should check that they have received this confirmation and retain it for their records.
- Where supporting documentation is required, parents must upload and submit all relevant documents as part of their application. Failure to provide the necessary evidence may affect the assessment of their application.
