Monday 17<sup>th</sup> January 2022

Dear Parents and Carers

### Community information

Last Thursday at 8.40am there was an attempted abduction of a child near a school in the north of the borough.

A black van was seen slowing down next to a child, a passenger in the van tried to grab the child and pull him into the van.

The child escaped and ran to the nearest school for help. The child is safe and has no injuries.

The passenger who grabbed the child has been described as white, in his 30s, about 6 feet tall and with black hair.

The police are currently investigating this serious incident.

Please ensure that you are vigilant. If your child walks to and from school alone ask them to be very careful and not speak to strangers and, if possible, remain with friends. We will be delivering 'Stranger Danger' talks to the children this week.

Please contact the police immediately if you have any concerns.

Thank you for your continuing support.
